DATE February 7, 2023

Our committee unanimously recommends reappointment of Jesse Bamba so that he can continue his path to tenure.

We evaluated Mr. Bamba using the updated reappointment procedures transmitted to the Deans from the SVPP on October 30, 2022.

Our decision is largely based on a very thorough, well designed comprehensive statement which provides copious hyperlinks which reference significant outputs generated during Mr. Bamba's first two years of employment as a faculty member.

In addition to his comprehensive statement, Mr. Bamba has submitted a 5-year plan and he made a presentation to the faculty at the ALS division meeting on January 27, 2023. Both of these tasks are new requirements within the reappointment procedures.

Mr. Bamba's comprehensive statement and other required documents are available online at <https://aubreymoore.github.io/bamba/>.
