Q: Strengths of this instructor:

- One of my favorite things about Mr. Bamba's teaching method was his encouragement of application and he to try different fruits. For example, one class was dedicated to lemmi and he brought lemmi prepared the way he enjoys it. It was the care and hope that he wants us to really know the fruits we were discussing that made his class very different and special. I will very much miss the class.
- knowledgeable, open to sharing so much information, easy to communicate with, patient, passionate
- Always engages with the class. Answers all the students questions. Provides more than enough resources to help students. Very patient

with the class. Would recommend this class to other students!

Q: Areas in which this instructor needs improvement:

- 1 nothing really i loved it. i maybe would've liked some quizzes here or there just for fun to solidify information
- 2 Perhaps to cover more on the tropical fruit production here on Guam, the marketing side of the farming, the process to becoming an established farmer here on Guam
